INDUSTRY STRUCTURE AND DEVELOPMENTS

Global Economy And Outlook

Amidst the prevailing global economic landscape, challenges such as a subdued manufacturing environment, faltering trade flows and persistent inflation concerns paint a complex picture for the future ahead. However, amidst these challenges, certain sectors, notably services, demonstrate resilience.

The recent update from the International Monetary Fund (IMF) offers a glimmer of hope, with a modest upgrade in growth projections for 2024 and 2025. Global growth is projected at 3.1 percent in 2024 and 3.2 percent in 2025, marking an increase from previous forecasts. This uptick is attributed to the stronger-than-expected resilience observed in the United States and several major emerging market economies, coupled with fiscal support measures in China. However, these growth projections still fall below the historical average of 3.8 percent, largely due to factors such as elevated central bank policy rates to combat inflation, reduced fiscal stimulus amidst high debt levels, and sluggish underlying productivity growth.

Furthermore, there is a notable decline in global inflation rates, driven by the resolution of supply-side constraints and the implementation of tighter monetary policies. Global headline inflation is anticipated to decrease to 5.8 percent in 2024 and further to 4.4 percent in 2025, with the latter figure being revised downward.

Additionally, the year 2024 also marks changing geopolitical situation for several nations which may introduce a degree of uncertainty. These changing landscapes hold implications beyond borders, influencing economic and public policy in an increasingly fractious global landscape. Despite potential challenges, these developments underscore the ongoing efforts to navigate economic challenges while striving for stability and sustainable growth in the global economy.

Indian Economic Overview & Outlook

India's economy has experienced a significant surge over the past decade, elevating it from the 10th to the 4th position in the global rankings, thereby establishing its position as a major economic powerhouse on the world stage.

The revised growth of India for FY 2023-24 estimated to 6.8% from 6.1% reflects stronger-than-expected data in 2023, with GDP growth estimated at 6.4% for 2025, with nominal gross domestic product (GDP) for FY 2023-24 at current prices being estimated at INR 293.90 trillion (US\$ 3.53 trillion). Robust indicators such as goods and services tax collections, rising auto sales, and double digit credit growth point to resilient urban consumption demand, complemented by expanding manufacturing and services PMIs on the supply side. This positive economic outlook is reinforced by the government's proactive measures, as evidenced by the interim budget for fiscal year 2024-25, which targets a capital expenditure allocation of Rs 11.1 lakh crore, signifying a 16.9% increase over the previous year's estimates. While private industrial capital spending has been sluggish, ongoing benefits from supply chain diversification and the government's Production Linked Incentive scheme are expected to spur investment in key manufacturing sectors.

In Budget 2024 presented by Union Finance Minister Nirmala Sitharaman outlined pivotal initiatives to propel India towards becoming a developed nation by 2047. The budget reiterated the government's commitment to the "Make in India" initiative, particularly focusing on positioning India as a hub for semiconductor and electronics manufacturing.

This positive economic outlook is reinforced by the government's proactive measures, as evidenced by the interim budget for fiscal year 2024-25, which targets a capital expenditure allocation of Rs. 11.1 lakh crore, signifying a 16.9% increase over the previous year's estimates. While private industrial capital spending has been sluggish, ongoing benefits from supply chain diversification

and the government's Production Linked Incentive scheme are expected to spur investment in key manufacturing sectors.

The budget allocation for the textiles sector has been increased by ₹974 crore to ₹4,417.09 crore in the Union Budget 2024-25. The budget, presented by Union Finance Minister Nirmala Sitharaman on Tuesday, raised the allocation for research and capacity building in the sector to ₹686 crore from ₹380 crore.

Industry Outlook and Trends

The textile sector is one of the critical sectors of the Indian economy, accounting for more than 2 percent of the total GDP and more than 12 percent of the manufacturing sector gross domestic product (GDP). The sector is also the second largest provider of employment in India, after agriculture. It provides employment to approx. 45 million people directly and to another 60 million indirectly through allied activities. Not only is the textile sector highly labour intensive, it also employs unskilled and semi-skilled labour force and is also an important source of employment for women.

The Indian Textile industry is growing at CAGR of 14.9%. The domestic apparel and textile industry in India contributing to 2% of country's GDP, 7% of the industry output in value terms. The share of the textiles and apparels in overall textile basket is consistently increasing. India's exports of Technical Textiles products registering a growth rate of 28.4% YoY.

As per the United Nations estimates, world's population could reach around 8.5 billion by 2030, 9.7 billion by 2050 and 11.2 billion by 2100 and following this the global apparel market is projected to grow to USD 1.65 trillion by 2025 and USD 2.7 trillion by 2030.

The Government of India has increased the budget allocation for the Ministry of Textiles by 27.60%, reaching to ₹4,392.85 crore for the financial year 2024-25. This enhanced funding demonstrates the government's commitment to supporting the textile sector through its various schemes and programs such as PM Mitra Park, NITTM, A-TUF, ISDS, RoDTEP, RoSCTL etc.

The Government of India through various incentive schemes such as Production Linked Incentive (PLI), Mega Investment Textiles Parks (MITRA,) support the growth of Textiles Industry. In recent past, the Government removed the import duty on cotton on Extra Long Staple (ELS) cotton, addressing demands from its textile industry. Indian Textiles industry imports ELS cotton from countries like USA, Egypt, etc. and using for producing high valued textile & apparel products mainly for exports purpose. During Apr-Dec 2023, India imported around 56,205 MT of Extra-Large Cotton, mostly from USA (44.6%) and Egypt (40.1%).

According to data released by the Ministry of Commerce & Industry, India's cotton yarn, fabrics/made-ups, and handloom exports witnessed a significant growth of 6.71% year-on-year, reaching a total value of \$11.7 billion in the fiscal year 2023-24. This remarkable increase occurred despite an overall 3% decline in total exports during the same period. In the last fiscal year, the top export markets included the United States (25%), Bangladesh, China, Sri Lanka, and the United Arab Emirates (UAE). Additionally, exports expanded into new markets such as Anguilla, Serbia, Georgia, and others, showcasing India's dynamic trade reach.

Opportunities in 2024

Digital textile printing, an inkjet-based technique, revolutionizes the textile industry by efficiently applying colorants to fabrics. Its adoption, particularly with dye sublimation printing, has surged in recent times and is poised for continued growth as technology evolves. This innovative approach empowers designers and manufacturers to unleash their creative potential, reduce waste and meet the demands of a rapidly changing market, while maintaining vibrant and high-quality textile designs.

In an increasingly eco-conscious world, the textile industry is witnessing a rising appetite for natural fibres. These fibres, including cotton, silk, linen, wool, jute and cashmere are at the core of the Indian textiles industry, which is poised to grow from its current valuation of \$138 billion to a projected \$195 billion by 2025. Notably, these natural fibres are celebrated for their eco-friendly attributes, characterised by a unique blend of lightweight durability. China, India and the United States are at the forefront of this trend, promoting natural fibres to sustain the growth of the global textile industry. As the demand for sustainable fashion continues to rise, natural fibres are expected to remain at the forefront of the industry.

Risks and Concerns

Supply Chain Disruptions

The textile industry relies on complex global supply chains involving raw material suppliers, manufacturers, and distributors. Disruptions such as natural disasters, political instability, trade disputes, or logistics issues (e.g., port congestion, transportation delays) can disrupt production schedules and increase costs.

Volatility in Raw Material Prices

Fluctuations in the prices of raw materials (e.g., cotton, synthetic fibers) can significantly impact manufacturing costs and profit margins. Price volatility is influenced by factors such as global demand-supply dynamics, weather conditions affecting crop yields, and geopolitical tensions affecting trade.

Environmental Impact and Sustainability

The textile industry is resource-intensive and has a substantial environmental footprint. Concerns include water consumption and pollution from dyeing and finishing processes, chemical usage, greenhouse gas emissions, and waste generation.

Competitive Pressures

Intense competition within the industry, both from domestic and international players, can lead to price wars and margin erosion. Companies must differentiate themselves through innovation, quality, sustainability credentials, and effective brand management to maintain market share and profitability.

Shifts in Consumer Preferences

Rapid changes in consumer preferences and trends (e.g., towards sustainable and ethical products, fast fashion) can pose challenges for companies that are slow to adapt. Understanding and responding to these shifts are critical for maintaining consumer loyalty and market relevance.

D Information other than the standalone financial statements and auditors' report

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises of the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

E Responsibility of the Management and Board of Directors for the standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The company's Management and Board of Directors are also responsible for overseeing the Company's financial reporting process.

F Auditor's responsibilities for the audit of the standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also -

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

G Report on Other Legal and Regulatory Requirements

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in Paragraph 2(F) under 'Report on other legal and regulatory requirements' section of our report to the members of **Shantai Industries Limited** (*formerly known as Wheel and Axle Textiles Limited*), of even date)

Report on the internal financial controls over financial reporting under clause (i) of sub – section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Shantai Industries Limited** (*formerly known as Wheel and Axle Textiles Limited*) ("the Company"), as at March 31, 2024, in conjunction with our audit of the standalone financial statements of the Company for the period ended on that date.

Management's responsibility for internal financial controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement in the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management of override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and according to the information and explanations given to us, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
